ABSTRACT OF THE DISCLOSURE

A cutting insert made of cemented carbide and the use thereof for recessing or copy-turning, preferably at a high rotating speed. The cutting insert has at least one recess for insertion therein of a cutting body of a material other than cemented carbide, such as a ceramic material. As stated in 37 C.F.R. §1.72(b): "The purpose of the abstract is to enable the Patent and Trademark Office and the public generally to determine quickly from a cursory inspection the nature and gist of the technical disclosure. The abstract shall not be used for interpreting the scope of the claims." Therefore, any statements made relating to the abstract are not intended to limit the claims in any manner and should not be interpreted as such.
